

Four women were enrolled in August. Congratulations to **Royal Brisbane & Women's** with two recruits and to **Auckland** and **Mater Mothers'** with one new recruit each.

Recruited to date
89 / 122

Four recruits this month is certainly an improvement on July's figures but as we now have **ALL of our 13 sites up and running** we really should be achieving 6-8 recruits per month. Please consider your local practice and see what you can do to make September our best month ever!

Welcome to the **Royal North Shore Hospital team** Professor Jonathan Morris and Fellow Dr Kathryn Austin.

Our thanks to Diana Bond for coordinating the application for RNSH to join the STRIDER trial. RNSH is the final site to join STRIDER NZAus taking our total number of sites to 13. We are looking forward to the first recruit from each of our newest sites: Mercy Women's, Townsville Hospital and Royal North Shore. Good luck!

STRIDER NZAus Childhood Outcome Study

The first of our STRIDER NZAus children have already turned two and will be eligible for planned follow up in January next year (at 2.5 years' corrected). Unfortunately we were again unsuccessful in securing funding from the HRC, the funder who has supported STRIDER NZAus. We have been busy over the last few months submitting applications for co-funding of this important follow up study to agencies in New Zealand and Australia and we are looking forward to updating you with a positive outcome in the near future. The Childhood Outcome Study will be submitted to the relevant ethics committees shortly and we will be in touch with your neonatology teams to progress local governance applications.

| STRIDER NZAus recruitment | Women Recruited |
|---------------------------------|-----------------|
| National Women's, Auckland | 20 |
| Mater Mother's, Brisbane | 20 |
| Royal Women's, Melbourne | 12 |
