

EIGHT women were enrolled this month. An amazing effort from **National Women’s, Auckland, who enrolled FIVE mothers** – congratulations Katie Groom and Jo De Sousa! Thanks to KEMH, Perth who enrolled two new women and Mater Mother’s who enrolled one.

Recruited to
date
96 / 122

A message from Katie: Last month we asked you all to try and make September our best month ever. At least we have equalled it! However, this was largely due to a burst of recruits here in Auckland. We know ‘STRIDER eligibles’ are few and far between but we would love to see every site consistently **recruiting at least one woman every other month**. Please look at your local practice and see what you can do to achieve this. For those at the bottom of the leader board please think of ways to move up. The end is in sight and we would love to see that every site has made a significant contribution to the trial. Thanks as always for your commitment to STRIDER NZAus! *Katie*

Randomisation & participant eligibility support available – Katie, Laura and Mariska are very happy to be contacted directly by mobile phone or email (details below) for any eligibility queries and recruitment issues. We aim to be available at all times for these enquiries.

If it has been some time since your last recruit or you are yet to enrol a participant and you have a potential recruit lined up PLEASE let us know as we would be very happy to take you through the process or be on standby to assist.

The STRIDER NZAus **DSMC** met in early September and again advised **“continuation of the trial without protocol modification”**. This should be their last meeting before trial recruitment is completed.
