

## STRIDER NZAus Update

2017 was a successful year for the trial with completion of recruitment in March and all babies delivered by July. We have a couple of queries to complete in data analysis but Katie is busy preparing the primary results manuscript and will be circulating this to lead investigators within the next few months.

We look forward to presenting the results at PSANZ 2018 Congress in March.

**Wishing you a safe and happy festive season and a very successful 2018!**

## STRIDER NZAus Childhood Outcome Study Update

The Childhood Outcomes Study is well underway in New Zealand with 11 children seen and 3 more booked for assessment before Christmas. Parental response has been amazing, with 100% follow up of children at target age (2.5 years  $\pm$  6 months), and online questionnaires have been very well received. Neurodevelopmental outcomes have so far been very reassuring. The Childhood Outcomes Study will thus not only provide essential information about the long-term effects of antenatal sildenafil treatment, but will also provide important contemporary data on outcomes following severe, early fetal growth restriction.

Planning for follow-up at Australian sites is progressing well. We welcome all the paediatric investigators who have recently joined the STRIDER team and will be leading follow-up at each of the Australian sites. Ethical approvals are in place and locality agreements are underway.

## PSANZ 2018 Whenua ki Whānau

The annual PSANZ Congress will be in New Zealand in 2018. The very best of ANZ maternal and perinatal health research will be showcased alongside leading international and Australasian experts providing the most up-to-date evidence to guide best practice care.

We would love to see you all at the Congress and particularly at the STRIDER NZAus Investigators Meeting on Tuesday 26<sup>th</sup> March 13:15-14:00 (within the congress venue, meeting room TBC).

**ANZ Viaduct Events Centre, Auckland 25-28<sup>th</sup> March 2018.**

For more details about the meeting and registration: <http://psanz2018.com.au/>
